## FAQs

### HOW DO I GET ONLINE AT STONE CREEK COFFEE?

In order to use the free Stone Creek Coffee internet access you need a laptop computer or PDA that is enabled to use WiFi 802.11b.

### WHAT IS WI-FI?

WiFi is short for Wireless Fidelity. WiFi is an over-the-air connection between an access point and a client computer or PDA. Stone Creek's WiFi is set up to let users access the internet. WiFi can also be used to set-up a LAN, local area network at home or work.

### WHY IS STONE CREEK COFFEE WI-FI FREE?

The short answer is that we think it is pretty cool to let our customers check their email while sipping a Boston Latte. Additionally, our company was founded on the idea of having fun and delighting our customers while selling amazing coffee. More and more of our customers are using WiFi to stay connected to the office or friends. We want to make that connection simple, easy and free.

### DO YOU OFFER TECHNICAL SUPPORT?

Unfortunately no. We are a coffee company and our staff knows a whole lot about making amazing lattes, but helping you set your SSID is another story. For technical help we suggest you contact the manufacturer of your wireless card or PDA. To report a problem with WiFi access at a Stone Creek Coffee location call 270-1008 xt 0 or email us at [info@stonecreekcoffee.com](mailto:info@stonecreekcoffee.com).

### WHAT IS A FREE SPOT?

A FreeSpot is computer lingo for a wireless access point that is available for the public to use. A WiFi FreeSpot is contrasted to a WiFi HotSpot that typically charges its users a fee to get online.
